ABOUT ME

I am a 20 years old student on my 3th bachelor's degree in Industrial IT. I discover the IT world when I was in secondary school, after i go in a technician school to learn it and use my knowledge. I liked to repair all IT stuff, and work in the school's network. But for me, I didn't learn enough, so i decide to go in a high school.

PROFESSIONAL EXPERIENCE

4 YEARS DURING THE HOLIDAY

STUDENT, AT WELL-PUMPS

As a student, I worked in stock management and on simple-to-use machines such as magnetic spot welders, hydraulic presses and metal cutting.
